

WE ARE READY TO HELP YOU FIGHT THE VIRUS

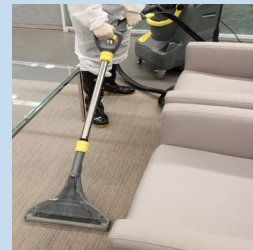

Temperature check with infrared forehead thermometer

Elevated human body temperature is often a reliable indicator of many serious infections. ISS can provide adequate manpower well equipped with sufficient protective equipment to check visitors' temperature at the main entrance of the buildings.

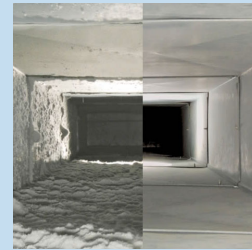

Disinfection Cleaning Service

ISS understand the disinfection cleaning is critical to ensure all users feel safe in using facilities. We could provide professional disinfections cleaning services in the office space, facilities, fixture and carpet with using "Forward DC" which supported by our global cleaning partner – Diversey and spraying "Oxine" with ULV fogger.

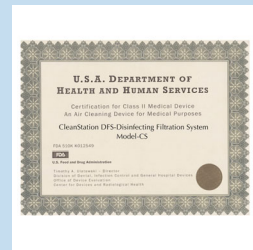

IAQ / Air Duct Cleaning Service

ISS is specialized in Indoor Air Quality (IAQ) Certification and Assessment, air duct cleaning & sanitization services. The anticipated benefit is to improve the air quality, reduce the allergen, remove indoor smell, save the energy and protect the air duct system by removing the accumulated dust and bacteria on the air duct internal surface. We have the technologies and experience to help our customer to maintain the hygiene in the workplace.

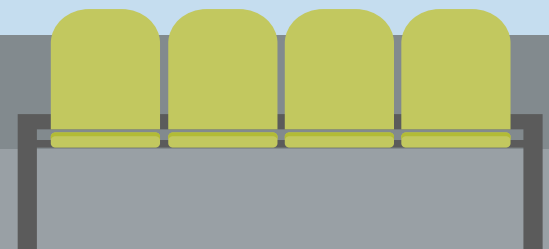

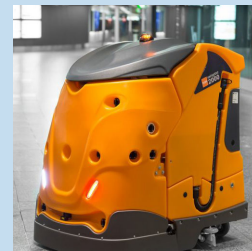

Air Purifier Rental Service

ISS also support our customer by providing Air Purifier Rental Service – "CleanStation" DFS Disinfecting Filtration Air Cleaner P100. By utilizing the DFS technology, it is more effective than traditional filtration methods in reducing bacteria and virus to provide our customer with the utmost clean and fresh air.

Global Procurement Partnership with Diversey

In partnership with our Global Cleaning Partner – Diversey, ISS strive to equipped our team with the right tools and methodology in supporting our customers. We have the team with the right skills, training and equipment, and always ready to support our customers with our ready team and expertise.
